Essence[™]

GREEN CHOICE SERIES

Multiteria is committed to the importance of designing serving stations that utilize Leadership in Energy and Environmental Design (LEED®) compliant products. Our ESSENCE[™] GREEN CHOICE SERIES will assist in contributing to your sustainable design goals and help your projects achieve LEED® credits in a variety of commercial applications.

- REUSABLE FRAMES
- SUSTAINABLE SURFACES
- CUSTOMIZABLE MODULAR DESIGN
- SOLID SURFACE AND STONE TOPS AVAILABLE

USGBC and related logo is a trademark owned by the U.S. Green Building Council and is used by permission.

ESSENCE[™] GREEN CHOICE SERIES by Multiteria serving station features include:

- Core panel material (MDF board) manufactured from 100% recycled wood waste and meets the most stringent formaldehyde emission standards, as well as a Class 1 Fire Rating.
- Laminate components are GREENGUARD® Indoor Air Quality Certified. All materials are free of formaldehyde and contain low- or no-Volatile Organic Compounds (VOCs).
- Countertops and tray slides: stainless steel or solid surface of recycled content material
- All stainless steel is from 70% recycled material.
- Adhesives and finishes are low-VOC emitting materials.
- Potential LEED® credits under: (MR = Material Resources; EQ=Indoor Environmental Quality)

Designed with sustainability in mind...

Countertops and Tray Slides: Stainless steel or solid surface of recycled content material

Food Shields utilize 3/8" tempered glass

Laminate Components are GREENGUARD® Air Quality Certified

Edgemold Edge Protector contains no phthalates or phthalate DEHP

Reusable welded tubular stainless steel frames allow for panel replacement when refurbishing is required.

MODULAR UNITS MEAN NO MORE LIMITS

*Create a look that's uniquely you –
without the costs and hassles of
custom-built units.*

- **12 Standard Sizes Available** – Twice as many as the industry standard.
- **18'-0" Common Tops Available** – Provides the appearance of a custom-fabricated, built-in serving line and eliminates the need for field welding. Combine as many modules as required and top it off with a common top making installation easy and fast.
- **Interchangeable Exterior Panels** – Removable, replaceable front and end panels for when a design change or refurbishing is necessary. Just slide into our tubular stainless steel frame (no tools required). Radius and angled corner pieces enhance custom servery design.

- **6" NSF-Approved Adjustable Casters (optional)** – Level Roll™ ELC (Equipment Leveling Casters) can be installed on new or existing stationary equipment to convert it to safe, level, mobile equipment.
- **Optional Electrical Load Centers** – Reduced electrical stub-ups/slab penetrations allows for ease of coordination and more feasible installation.

TIGHT LINK™ Locking System

Multiteria's patented connector and TIGHT LINK™ locking system eliminates the gaps and uneven seams by channel locking two or more pieces of equipment together, giving the clean lines and appearance operators' are looking for (with no tools necessary!). TIGHT LINK™ creates the appearance of a custom-built serving line without the cost, lead time and installation difficulties associated with custom units.

Food Shields Perform Double Duty

Go from Operator Service to Self-Service with the Flip of a Hand!

- Standard food shields easily switch from service to self-service (no tools required).
- Food Shields utilize 3/8" tempered glass panels to maximize merchandising
- Stainless steel or powder-coated finishes available.
- European-style food protectors also available

MULTITERIA HAS A SERIES JUST FOR YOU

X-STREAMLINE™ Interaction Stations

Our basic modular series is designed for schools; combining colorful interactive, removable counter fronts making remodeling easy and affordable. This product line comes in six standard sizes. The X-Streamline Series utilizes the highest quality components while providing a superb value.

Essence™ Innovative & Inspired Food Stations

Our standard product line offers the most options in the industry and fits within any size budget. The durable stainless steel frame is reusable. The body panels, counter tops, drop-ins and food protectors are interchangeable or replaceable making renovations a snap.

Bravura™ CREATING A BOLD PRESENTATION

A fusion of modular design with custom touches. Designed with an upscale appearance in order to maximize participation and increase revenues. Bravura creates a retail environment or food court atmosphere. Whether it is a Marche-service or an open market atmosphere, Bravura optimizes functionality.

Meritage™ Seeing is Believing...

Elegant serving stations designed with unique wood finishes, solid surface or stone tops and European style food protectors. Meritage is designed for country clubs, hotels, casinos, caterers and fine dining establishments offering a touch of class and sophistication.

BEYOND THE STANDARD

Multiteria cares about the health and wellness of our future generations. We support the importance of Sustainability in order to contribute to minimizing the impact on our environment. We are committed to continue developing innovative products by listening and addressing the needs of our customers and of the ever-changing industry. **To learn more, call MULTITERIA at 847-236-9677.**
