

Essence™ Essence Farm to Table Counter

BEFORE/AFTER: Convertible, sustainable design – Panels can be easily changed in the field w/o use of tools

Materials used:

- 14 Gauge s/s counter top (solid surface or quartz also available)
- 100% stainless steel, tig welded tubular frame for structural integrity
- Overstructure; corrugated galvanized metal roof featured with whimsical laser cut rooster image (customizable)
- Rustic style pendant lights and LED lighting available for food shield
- Designed with changeable “chalk board” signage with hand written text, can be changed/reused or (custom signage available), shown with decorative scale for whole fruit display
- Food shields; Service to self-service (standard) at the flip of a hand (unique to Multiteria)
- Removable stainless steel interior shelf (standard)
- Available with convertible hot to cold wells for menu flexibility
- Counter material; simulated weathered, reclaimed wood exterior finish (*Wilsonart Antique Cognac Pine Y0306*) Traditional red barn siding w/white trim or standard/custom laminate colors to select from
- Single point electrical connection for plug and play design
- locking doors available

Another example of how “Multiteria Leads by Design”... and how we can create unique “customizable” designs to enhance the dining experience
