EXPANDABLE COUNTER

RETAIL X-tension™

Specifications (Short Form)

Provide Multiteria Model # **RXT 72** to be constructed with heavy duty 1" welded stainless steel tubular frame and laminated front and side panels made from 3/4" laminated medium density fiberboard. Counter top to be manufactured with 14-gauge stainless steel with 1-1/2" top turndown. All welds to be ground and polished to provide #4 finish. Unit in closed position is 32" x 72" x 77"H (designed to fit through common doorways). Locking mechanism holds the 48" expansion section in closed position when moving. Unit in extended position increases length by 48" to O.A. size 32" x 120" x 77"H. Casters (6 ea.) are 5" heavy-duty, all swivel. Unit is UL listed.

Electrical

Single 120 VAC power supply cord for optional tower lighting and a 15 Amp convenience receptacle. Single switch for tower lighting.

Body Frame

Counter to have 4' expandable section equipped with locking mechanism to secure expanding section within main counter body during transport.

Optional Tower With LED Lighting

All-stainless steel tower construction includes stainless steel structural supports for rigidity and removable access panels for service and maintenance. Tower is available with backlit plexiglass signage plate with laser cut stainless steel cover on vertical and/or horizontal sections (consult factory for specific lettering.) Tower supports a cantilevered U-shaped LED light fixture over main counter.
