SPECIFICATIONS

General:

Shall be Multiteria Model #CS__30 to be constructed with heavy-duty welded stainless steel tubular frame. Countertop to be manufactured with 14-gauge stainless steel with 1½" top turndown all welds to be ground and polished to provide #4 finish. Counter to have easily removable ¾" laminated front and end panels. All millwork panels to have standard plastic laminate on front and white laminate interior.

Body Frame:

Shall be welded and polished, 1" stainless steel tubular framework. Body frame made to readily accept ¾" laminated panels to allow panel changing without the use of tools. Body frame made to accept TIGHT LINK™ (patented) fastening system. Base to be furnished with removable stainless steel undershelf. Undershelf depth to allow 4" clear open space for mechanical connections during installation. Unit shall rest on 6" high stainless steel legs with stainless steel adjustable feet.

TIGHT LINK™ system:

Furnish with patented slide-in panel(s) that link adjacent counters together their entire depth and height to eliminate top, front and rear horizontal and vertical gaps between equipment. Linking panels are open to allow mechanical connections to run through adjoining counters without having to cut access holes, reducing the number of building mechanicals required to connect equipment.

MODEL DETAILS

Model	Description	Ship Wt. (Lbs.)
CSD30	Double-sided (Operator at end of counter)	218
CSE30	Single-sided (Operator at end of counter)	210
CSO30	Single-sided (Operator at back of counter)	210

Front & End Millwork Panels:

Millwork panels to be constructed of ¾" wood substrate with standard plastic laminate on front and white laminate interior, color matching edge banding on top and sides, and black rubber T-molding on bottom edge. Panels are removable for service access. End panels are removable without use of tools.

Countertop:

Counter top is 14-gauge stainless steel with 1½" turned down edges and stainless steel support channels.
